## What are the advantages of having international apprentices from Europe in your company?

### Good value

- Mainly he/she wants to have an international experience. He still is earning. He is not very expensive

### Well trained

- He has finished his curricula; he is ready to work

### Highly motivated

- Consequently: good productivity

### Gives added value to the Company

- International perspective
- Youth
- Innovation: different perspectives

Take part in this  
international project!
